

The Particle/Field/String Theory Group at the University of Washington invites applications for a postdoctoral research associate position starting in autumn 2010. The appointment will be for two years, with a possible extension for a third year. Faculty members in the group are Steve Ellis, Andreas Karch, Ann Nelson, Steve Sharpe, and Laurence Yaffe. We have strong ties to experimental groups interested in hadron collider physics and particle astrophysics, and to the Nuclear Theory group and the Institute for Nuclear Theory at the University of Washington. We will consider applicants in all areas of particle physics, phenomenology, lattice field theory, quantum field theory, string theory, and particle cosmology.

Applications must be submitted at [AcademicJobsOnline](#), and should include PDF versions of your CV, list of publications, and a summary of research interests, plus contact information for three people from whom letters of recommendation may be requested. PLEASE DO NOT MAIL OR EMAIL APPLICATION MATERIALS DIRECTLY TO US.

Review of applications will begin on November 1, 2009, and continue until the position is filled. The University of Washington is an Equal Opportunity/Affirmative Action employer.

For more information on this position, please contact Prof. Ann Nelson at [anelson@phys.washington.edu](mailto:anelson@phys.washington.edu) or 206-543-2027.
