## PHYSICS COLLOQUIUM

Monday, January 21, 2008

Holiday-No colloquium this week

*January 21-25, 2008*

Tuesday, January 22

**Particle Theory Seminar**

2:30 PM, Rm. C-421, PAT

Yusuke Nishida, INT

“Fermions at unitarity as a nonrelativistic conformal field theory”

**Condensed Matter Seminar**

4:00 PM, Rm. C-421, PAT

Dan Chiu, UW Chemistry

“Droplet Microfluidics”

Thursday, January 24

**CENPA/Physics Final Exam**

3:00 PM, Rm. 178, NPL

Adam Cox-Mobrand

“Detector Integrity and Electronics Calibrations for the Neutral Current Detector Phase Measurement of the 8B Solar Neutrino Flux at the Sudbury Neutrino Observatory”

**Astronomy Colloquium**

4:00 PM, Rm. A-102, PAA

Avishai Dekel, Hebrew University of Jerusalem

“The Dual Role of Cold Flows in Galaxy Formation: Star Formation and Quenching”

Friday, January 25

**Particle Astrophysics Seminar**

3:30 PM, Rm. A-110, PAA

Jeffrey Wilkes, UW Physics

“T2K progress report”
