PHYSICS COLLOQUIUM

Monday, February 18, 2008

Holiday-No colloquium this week

Tuesday, February 19

Particle Theory Seminar
2:30 PM, Rm. C-421, PAT

Paul Romatschke, INT
"Viscous Hydrodynamics of N=4 SYM and status of eta/s at RHIC"

Condensed Matter Seminar
4:00 PM, Rm. C-421, PAT

Dmitri Basov, UC San Diego
"Infrared Spectroscopy of Correlated Electron Matter at the Nanoscale"

Wednesday, February 20

Joint INT/Bartol Workshop
9:00 AM, Rm. C-520, PAT

"Nuclear Interactions at Ultra-High Energy in Light of Recent Results from Auger"
See program details at: <http://int.phys.washington.edu/PROGRAMS/auger.html>

Thursday, February 21

Joint INT/Bartol Workshop
9:00 AM, Rm. C-520, PAT

"Nuclear Interactions at Ultra-High Energy in Light of Recent Results from Auger"
See program details at: <http://int.phys.washington.edu/PROGRAMS/auger>

Astronomy Colloquium
4:00 PM, Rm. A-102, PAA

Ryan Scranton, Google
"Cosmic Magnification with the Sloan Digital Sky Survey"

Friday, February 22

Joint INT/Bartol Workshop
9:00 AM, Rm. C-520, PAT

"Nuclear Interactions at Ultra-High Energy in Light of Recent Results from Auger"
See program details at: <http://int.phys.washington.edu/PROGRAMS/auger.html>

Particle Astrophysics Seminar
3:30 PM, Rm. A-110, PAA

Taqi Jaffri, UW Physics
"Air shower analysis with the enhanced WALTA array at Liberty High School (Renton)"
