

# Seminars

May 26-30, 2008

Monday, May 26

Memorial Day Holiday

**NO PHYSICS COLLOQUIUM**

Tuesday, May 27

**CMA Seminar**

4:00 PM, Rm. C-421, PAT

**Michael Schick**, UW Physics

“How do we understand the phase behavior of ternary mixtures of saturated and unsaturated lipids and cholesterol?”

**Physics Final Exam**

1:00 PM, Rm. C-520, PAB

**Kai Joshua Miller**, UW Physics

“Characteristic changes in electrocorticographic power spectra of the human brain.”

Thursday, May 29

**Astronomy Colloquium**

4:00 PM, Rm. A-102, PAA

**Jacqueline van Gorkom**, Columbia University

“The Evolution of Galaxies in Different Environments”

**Physics Final Exam**

3:00 PM, Rm. C-520, PAT

**Andrew O'Bannon**, UW Physics

“Holographic Thermodynamics and Transport of Flavor Fields”
